From Financial Ledgers to AI Governance

25+ years of BFSI discipline channeled into enterprise automation, architecture, and AI oversight — across Canada, UK, India & Australia.

1995–98

Commerce Foundation

B.Com, Mumbai University — accounting, finance and business fundamentals.

1998–08

Financial Operations

Banking operations, reconciliations, financial controls and risk awareness.

2008–15

Transformation Leadership

Process redesign and technology-enabled transformation across regulated enterprises.

2015–22

Automation Leadership

Delivered enterprise automation programs across the UK, Australia and Canada; led 80+ automations at Canada Life.

2022–26

Enterprise Platform Architecture

UiPath platform strategist advising Fortune 500 clients on automation architecture, adoption and governance.

2026–Now

AI Governance

Developing enterprise AI governance, architecture, implementation and agentic-control frameworks.

CORE CAPABILITY SHIFT Finance → Operations → Transformation → Automation → Architecture → AI Governance

25+

YEARS IN BFSI & TECHNOLOGY
